AV Master Compliance Framework (AVMCF) – ES-1

Technical Framework for Pro AV Project
Review and Construction Management

Introduction

What is AVMCF – ES-1?

- A structured technical framework designed to assess, certify, and manage Pro AV projects.
- Under development by experts in Crestron, Q-SYS, Polywall, Extron, Kramer, Shure, Biamp, AMX, KNX, and CTS.

ELITE SMART
GROUP

Scope of AVMCF

- Technical design & system architecture review
- Interoperability certification between AV systems
- Construction management & compliance auditing
- Post-installation validation & optimization
- Risk assessment & contingency planning
- Continuous monitoring & reporting

ELITE SMART
GROUP

GLOBAL
INNOVATORS
CONFERENCE

THE 10TH ANNUAL EDITION
#GIC2019

AVMCF Modules

1. AV Design Verification
2. System Integration Assessment
3. Construction Supervision
4. Quality Assurance & Testing
5. AV Performance Optimization
6. AV Security & Compliance

ELITE SMART
GROUP

1 – AV Design Verification

- Review of AV project blueprints and schematics
- Adjustment of project for good practices

2 – System Integration Assessment

- Verification of system integration and operability project
- Specially involving automation assets

3- Construction Supervision

- Supervision of all the construction points for AV
- Ensure project AV required infrastructure

ELITE SMART
GROUP

4 – Quality Assurance & Testing

- Assurance of project execution according to BOM and project
- Testing every system

5 – AV Performance Optimization

- Configuration for best experience with the AV structure
- Optimized configuration regarding: purpose, space structure, team etc.
- Usage manuals
- Post-installation optimization

6 – AV Security & Compliance

- Verification of the project security requirements
- Checking good practices
- Verification of customer requirements and compliance

Certification and Assessment

- Review of system schematics & blueprints
- On-site evaluations by certified experts
- Systematic interoperability testing
- Compliance with AV protocols & security standards
- Issuance of AVMCL certification

ELITE SMART
GROUP

Expert Panel

Certifications and Expertises held by the AVMCF team:

Crestron

(CTI-P101, DMC-D, DMC-T)

Biamp

Tesira Certification

Samsung

Q-SYS

(Level 1, Level 2, Control 201)

Shure

Integrated Systems Certification

LG

Kramer

Control Specialist

Extron

(EAVA, ECP)

Polywall

AMX, KNX and others....

Pricing Structure

Pricing based on:

- Project size & complexity
- Number of AV systems
- Customization & compliance levels
- Construction supervision duration
- Post-installation monitoring

ELITE SMART
GROUP

Benefits of AVMCF

- Seamless AV system integration
- Quality assurance through validation
- Compliance with industry standards
- Peak system performance
- Reliability and reduced downtime

Conclusion

- AVMCF ensures the highest standards in Pro AV installations.
- Reliability, security, interoperability, and peak performance for your projects.
